

Green Wood in Numbers

GreenWood Family Park and sustainability go hand-in-hand. GreenWood is committed to preserving the planet in every action it takes and has been doing so for more than 30 years.

1 the world's only people-powered roller coaster, the Green Dragon

130m² amount of rainwater harvested each year

200 minimum number of trees we plant each year

17 acreage of the park

80% of our park is powered by solar energy

150,000 visitors per year

576 number of panels in our solar array

27 miles our local supplier radius

15.5 litres average water usage per visitor

1st Solar Splash is the UK's first solar-powered ride

100% Green Dragon's energy efficiency at full capacity

100% food waste recycled

1,700 tonnes of carbon saved by our solar farm

2 how many lightbulbs could be powered in the same period as the Giant Jumper

1993 GreenWood's sustainable journey began on the day we opened
